Professional Experience

Senior Web Developer

Always Open Commerce

2015 – Present

- Developed and maintained custom eCommerce themes for BigCommerce, Shopify, Magento, and WordPress-based platforms.
- Built advanced UI components and dynamic storefront widgets using BigCommerce's Widget Builder SDK and Stencil framework.
- Translated UI/UX designs from Figma, Adobe XD, and Photoshop into responsive, cross-browser-compatible web interfaces.
- Implemented performance optimization techniques, improving PageSpeed, SEO, and accessibility compliance.
- Managed domain and business email setup using Google Workspace, Zoho, and cPanel.
- Handled SSL certificate deployment, IP routing, and basic network configuration.
- Collaborated with designers, project managers, and clients to deliver high-quality, on-brand web solutions.

Web Developer

D-Tech

2012 – 2015

- Developed and maintained custom themes for Magento and WordPress platforms.
- Translated UI/UX designs from Photoshop into responsive, cross-browser-compatible web interfaces.
- Implemented performance optimization techniques to improve PageSpeed and SEO.
- Managed domain and business email setup using GoDaddy and cPanel.
- Deployed SSL certificates and configured IP routing and basic networking setups.
- Collaborated with designers, project managers, and clients to deliver high-quality, on-brand web solutions.
